Practical Life Homework

Care of Environment: Sweeping

Please encourage your children to help maintain their home environment by sweeping the floor after a meal or an activity.

Instructions:

1. Gather a lightweight, child friendly broom, hand brush and dustpan.
2. Hold the broom handle with your dominant hand near the middle of the broomstick and your subdominant hand near the top.
3. Sweep in long, firm strokes to gather the debris into one area.
4. Return the broom to its proper location and collect the hand brush and dustpan.
5. Crouching down, hold the hand brush with your subdominant hand, and use your dominant hand to sweep the debris into the dustpan.
6. Carefully empty the contents of the dustpan into a garbage bin.
7. Return the hand brush and dustpan to their proper location.
8. Thoroughly wash and dry your hands.

If you would like to send in a 3x5 hard copy photo of your child performing this task, we will be happy to post it on our Community at Work bulletin board. Seeing themselves on the board gives our students a greater sense of pride and encourages independence.
