## **Practical Life Homework**

### Care of Environment: Flower Arranging

#### **Instructions:**

1. Choose a small vase and carefully carry it to a table.
2. Carefully carry a small pitcher of water to the same table.
3. Bring a dry cloth or sponge, along with a doily, to the table.
4. Place a bunch of flowers without thorns on the table. (An adult should precut the stems of the flowers to fit in the vase and remove any excess leaves.)
5. Fill the vase halfway with water. (If you have a small funnel, place it in the vase and pour the water through it.)
6. Use your sponge to wipe any water that may have spilled on the table or on the outside of your vase.
7. Select some flowers and place them in the vase.
8. Carefully lift your vase and place your flower arrangement on top of the doily.
9. Return your sponge and pitcher to the kitchen.
10. Enjoy a snack or activity at the table you have brightened with your flower arrangement:)

If you would like to send in a 3x5 hard copy photo of your child performing this task, we will be happy to post it on our Community at Work bulletin board. Seeing themselves on the board gives our students a greater sense of pride and encourages independence.
